

**Action Plan** - In response to the feedback we are reviewing way we publicise study club and other after school provision to make it clearer what is available to families. We have also taken note of some comments about healthy food options and responses about the Gateway. We are conducting a full review of our canteen service and some significant changes should be seen in the new academic year. We have passed on parental feedback about the Gateway to the company that run it, such as a single checkout option rather than having to process each payment separately but as you may appreciate some of these are beyond our control. We have also taken note of parental comments in the survey, but also to senior leaders in person, about the timing of the parent evenings. Generally the feedback has been positive but some families would appreciate an opportunity to discuss their son's progress earlier in the year, especially parents of boys in Year 7. We are looking at this and changes will be published in the new academic year calendar for 2017-18.

Thank you to all of you who took part in the survey and for your continued support of St Thomas More High School as we continue to journey towards being an outstanding Catholic school.
