## OPPORTUNITIES

World Space Week is an international celebration of science and technology, and their contribution to the betterment of the human condition. The United Nations General Assembly declared in 1999 that World Space Week will be held each year from October 4-10. These dates commemorate two events:

- October 4, 1957: Launch of the first human-made Earth satellite, Sputnik 1, thus opening the way for space exploration
- October 10, 1967: The signing of the Treaty on Principles Governing the Activities of States in the Exploration and Peaceful Uses of Outer Space, including the Moon and Other Celestial Bodies.

In this session, NASA Flight Controller Amy Dill will be talking about her experience at Mission Control, what it's like to help astronauts while they are in space, the role of rockets, and what skills are needed to work in the space sector.

Astro Pi Mission Zero is a free, beginner-friendly challenge from ESA and the Raspberry Pi Foundation. In under an hour, participants write a short Python program that displays an image or animation on an Astro Pi computer aboard the International Space Station. The program also reads live data from the Astro Pi's colour and luminosity sensor to set the background colour, so the artwork responds to real conditions in space. No previous coding experience is needed, and no physical kit is required.

Space - the final frontier, now closer in reach than ever before. Companies worldwide are looking to the skies with the hope of exploring, and being one of the leading stars in the space sector. But, what do they need to get there, and how does the Civil Aviation Authority come into this? Join this Sprint with the Civil Aviation Authority, and use your skills to understand the process of preparing a spacecraft launch licence application, and, with the help of expert professionals, you'll understand key aspects around exploring space.

In this captivating Subject Spotlight, Paul Sant presents: Computer Science: Space explanation, AI and beyond. He explains what computer science is, fundamental skills for a computer scientist and how computer science has revolutionised industry. Paul then talks about why AI is the future for learning, considers the failings of AI, and discusses the impact of AI on society in the modern age. Paul discusses the role of computer science in the fascinating case study of the Mars Rover, which failed and crashed in 1999.

## JOB OF THE WEEK

Planetary Scientist

A planetary scientist studies the origin, evolution, and physical characteristics of planets, moons, asteroids, and other bodies in the solar system. To access this role, you often need to earn an undergraduate degree in physics, geology, astronomy, chemistry, or planetary science. You will need strong abilities in mathematics, computer programming, data analysis, and scientific problem-solving.

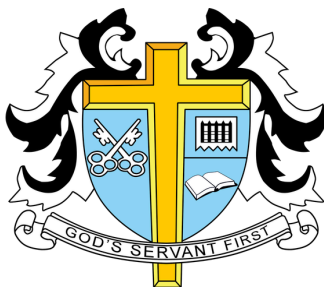

## LABOUR MARKET INFORMATION FACT

The UK space industry directly employs around 55,550 people, with employment growing by nearly 7% in a single year (2022/23).

When supply-chain and wider supported jobs are included, the sector supports around 137,000 UK jobs.

## OPPORTUNITIES

The UK Parliament Work Experience programme is ideal for students who want to gain more experience in the world of work. This programme is delivered remotely via Waypoint, a platform provided by SixtyLearn, enabling more young people to gain insight into careers at Parliament. This programme gives you the chance to explore Parliament as a workplace, try realistic tasks inspired by real roles, get personalised feedback to help you grow, and learn about the teams that make Parliament happen!

Free webinar for Year 12 and 13 students and parents: What Top Universities Are Really Looking For. Former Head of Careers Kate Grace will discuss how admissions tutors read personal statements and what builds a truly competitive application. It runs Wednesday, 30 September, from 7 to 8 pm. Slides and a replay will be sent to everyone who registers.

If you are interested in applying for the RPC Solicitor Apprenticeship and would like to find out more, you can attend their virtual insight evening which will run from 5 pm - 7.30 pm on Wednesday 14 October 2026. It's a fantastic opportunity to gain an insight into their work and clients, get to know their people, hear about the apprenticeship study course from The University of Law and ask their apprentices first-hand about their experiences. Their early talent team will host the event and will be on hand to answer questions and provide advice on how to apply.

The National Cyber Force is a partnership between defence and intelligence, responsible for operating in and through cyberspace to counter threats, disrupting and contesting those who would do harm to the UK and its allies, to keep the country safe and to protect and promote the UK's interests at home and abroad. Working in cyber provides you with the chance to use your skills to their full potential and play your part in keeping the country safe. The Government's agencies need both technical and non-technical people, with both providing their own individual knowledge and experience. By joining this insight event on Tue 20th Oct 4:30PM - 6:30PM, you'll learn about how you can get involved in vital work to keep the country safe.

## EMPLOYER SPOTLIGHT

AstraZeneca is a global pharmaceutical company that researches, develops and produces medicines used by patients around the world. Young people interested in science don't have to become doctors: its early careers opportunities cover science, engineering, manufacturing, digital technology, data and business. UK routes include apprenticeships, work experience, undergraduate placements and graduate programmes, offering different ways to begin a career within healthcare and life sciences.

## UNI SPOTLIGHT

LSE is a specialist university focused on social sciences. Courses cover areas including economics, politics, law, geography, international relations, sociology, management and finance. Its central London location creates opportunities to engage with businesses, government, charities and international organisations. LSE could particularly suit students who are interested in understanding how society, politics, economies and organisations work and enjoy discussing important global issues.

## Work Experience Launches for Year 10 and Year 12

This week, students in Year 10 and Year 12 attended their Work Experience Launch assemblies, where they were introduced to the process of securing a placement and preparing for a valuable period of learning in the workplace. Both assemblies emphasised the importance of work experience in helping students explore career options, develop employability skills, build confidence, and gain insight into the expectations of employers.

Students were encouraged to begin their search early by speaking to family members, friends, local businesses, and employers within their networks. They were also shown how to record and manage their placement through Unifrog, with reminders that all placements must be approved by the school and supported by the required paperwork before they can be confirmed.

### Year 10 Work Experience Key Dates

- **Work experience will take place from Monday 19 April to Thursday 29 April 2027**
- **Deadline Placement uploaded to Unifrog: Thursday 25 March 2027**
- **All Unifrog placement details completed by Friday 16 April 2027.**

### Year 12 Work Experience Key Dates

- **Work experience week: Monday 28 June to Friday 2 July 2027.**
- **Deadline Placement uploaded to Unifrog: Friday 28 May 2027**
- **All Unifrog placement details completed by Friday 11 June 2027.**

A key message from both assemblies was that the most successful placements are often secured by students who start their search early, keep an open mind about different sectors, and are proactive in contacting employers. The Careers Team looks forward to supporting students throughout the process and hearing about the exciting opportunities they secure for the year ahead.

# Clifford Chance

## An Insight into Clifford Chance A World Leading Law Firm Friday 9th October 5pm-6:30pm

### FAO Y11, Y12 and Y13 Students Interested in Law

Hello,

Does a legal career within an international organisation sound like something you'd be interested in? Join us for an exclusive virtual event with Clifford Chance, one of the world's leading law firms, to gain valuable insights into the profession and explore the opportunities available to kickstart your career.

#### Event Details:

- **Event:** Insight to Clifford Chance
- **Date:** Friday, 9th of October
- **Time:** 5:00pm - 6:30pm
- **Location:** Virtual
- **Who Can Attend?** Year 11, 12, 13 students (S4, 5 & 6)

#### Why Attend?

Clifford Chance is renowned for its dynamic and inclusive culture, delivering exceptional law services to **businesses of all sizes across the UK and internationally**. With a global network operating in **23 countries** and **34 offices** worldwide, Clifford Chance offers unmatched opportunities for students to gain valuable experience in Law.

This event is a must-attend for students considering a career in law. It offers insights into life at Clifford Chance and how to join their **student programmes**, such as ACCESS, and their industry-leading **training contracts**.

Whether you're considering a career in law or already know this is the route you'd like to go down, this event offers an invaluable opportunity to explore what a career at Clifford Chance could look like and understand the pathways available to help you succeed.

**Register Here:**

[https://www.surveymonkey.com/r/Clifford\\_Chance\\_Y12](https://www.surveymonkey.com/r/Clifford_Chance_Y12)

Don't miss your chance to explore exciting legal opportunities with Clifford Chance. We look forward to welcoming you!

Best regards,

Dan / Young Professionals

**What are the alternatives to a full-time degree or degree apprenticeship? Find out how HTQs can be the perfect next step after year 13**

Thursday 8th October 4-5pm

[Register here](#)

We know that there is currently huge demand for higher and degree apprenticeships, but that demand is outstripping supply. Higher Technical Qualifications (HTQs) can be a good option for students to consider, providing a bridge into higher education, higher or degree apprenticeships, or a skilled job, ensuring that they stay on track with their career progression and learning. In this webinar we will share everything you need to know about HTQs, plus hear from a range of HTQ students sharing their personal journeys and how HTQs have supported their career plans.

Even if you can't attend live, registering will give you access to the recording, slides and supporting resources afterwards.

Best wishes,  
Kerrie

WEBINAR 02 // ACCA X SUCCESS AT SCHOOL

# The Reality Check: Day in the Life of an Apprentice

---

**LIVE SESSION: 2ND DECEMBER 2026 @ 6:30PM**

---

It's easy to read lists of benefits on a website. But what does an accountancy apprenticeship actually feel like on a cold Tuesday in November?

We are pulling back the curtain. Join current apprentices as they share their real, unfiltered schedules, how they balance work and ACCA exams, and the crucial lessons they've learned on the job.

**RESERVE MY PLACE**

## TWO SIDES OF A DAY

**09:00 AM — WORK**

### **Real Corporate Impact**

From analysing global client accounts to attending client

**04:00 PM — STUDY**

### **The ACCA Pathway**

How do you study for a world-renowned qualification while

meetings across the country,  
learn how apprentices handle  
real corporate responsibility  
from day one.

working? Get tips on exam  
strategies, time management,  
and support networks.

## THE LIVE AGENDA

### **PART 1**

#### **Hour-by-hour schedules**

See exactly how apprentices structure their corporate workdays alongside study blocks.

### **PART 2**

#### **Unfiltered live Q&A**

Submit anonymous questions and get direct, honest answers from current finance apprentices.

### **PART 3**

#### **Certificate progress**

If you attend 2 or more ACCA webinars, you will receive a signed certificate of attendance for your CV!

**RESERVE MY PLACE**

This series is hosted by Success at School in partnership with ACCA.

You don't need to sell it. **Just put it in front of the students who could use it**, whether that's your strongest academic performers looking for an alternative to uni, or students who'd thrive with hands on experience and structure but haven't had a route like this in front of them yet.

Forward it on, or drop it in a newsletter, whatever's easiest on your end.

Speak soon,  
The Pathway CTM Team

I wanted to share a free opportunity for any students aged 14-18 who might considering a future career in medicine.

This October, we're running **Future Doctors Month** — four completely free, live online medical work experience sessions for students aged 14–18.

Students can join our doctors each Sunday and work through a different interactive medical scenario:

**11 October — A&E: Can You Save the Patient?**

Students assess an emergency patient and decide what should happen next.

**18 October — Inside the Operating Theatre: Anaesthetics**

Explore anaesthesia, airway management, monitoring and how patients are kept safe during surgery.

**25 October — The Diagnosis Challenge: Medical Detective**

Students investigate a mystery patient, interpret the evidence and work towards a diagnosis.

**1 November — Outbreak: Can You Stop the Spread?**

Investigate an infectious disease outbreak and make clinical and public-health decisions.

All sessions are **live online at 2pm UK time** and recordings will be available afterwards, so students don't need to attend live.

At the end of the programme, students can take our **Future Doctors Knowledge Test**, with those achieving 80% or above receiving a personalised certificate.

**It's completely free and students only need to register once for all four sessions.**

[Register free for Future Doctors Month](http://www.premedprojects.co.uk/free) - [www.premedprojects.co.uk/free](http://www.premedprojects.co.uk/free)

Please feel free to **forward this email directly to any students or parents who may be interested.**
