

ALUMNUS OF THE MONTH JUNE 2025

Abdul Banghura

Founder & CEO of ALAC Group

The quote I live by: "The worst place you can tell a lie is in the mirror!"

Award winning entrepreneur I built a successful meal prep business and went on to have 3 stores. After the Covid pandemic and the loss of my child's mother I was forced to reinvent my purpose and took the bold step to build a new business in the aviation space. I now buy & sell aircraft, charter and manage global fleets!

ALAC Group is a global leader in aviation, renowned for its innovative approach and specialized services. We offer expertise in Auditing, CAMO, Sales & Acquisitions, Spares, and timely Industry News. Trust in our commitment to ensuring safety, quality, and cutting-edge solutions for all aviation needs.

At college I first studied business & finance, I then went onto study accounting (AAT) it was during this time

I fell into trouble I was 18. However, I learned from my mistakes and have since given a number of talks across multiple organisations including the prison service where he once spent some time. Following a speaking engagement at **HMP Chelmsford**, the response was extraordinary. Over **285 prisoners** completed a follow-up survey and the recording of Abdul's talk was viewed more than **550 times** — in a prison with **665 inmates**. He is determined to continue on his path of growth and development – helping to change the lives of other people and providing for his daughter.
